Jyoti Sroat School, a unit of Bethany Society offers formal and non formal education to children belonging to vulnerable groups like children with disability, orphans and those from very poor economic background. The school now has 172 students with many of them from the very poor, rural and semi urban areas.

All children are provided with suitable quality opportunities in academics (MBOSE Course), vocational training, computer education and co-curriculars along with specific skills. Meeting the individualised educational needs demands highly professional interventions which again incur a great deal of expense well beyond the financial ability of this school.

Inspite of much strife, Jyoti Sroat School still remains private and the financial support received as of now, covers only half of all requirements.

Thus I look up to you as a philanthropist to partner with us as we live to give these children a brighter life and future.

The names and details of children are given in the attached list. You may sponsor one, some or all children as your heart tells you. The sponsorship begins with the lowest expectation of Rs. 100/- a month (1200/- a year).

I thank you for giving your time in reading this and look forward to your contacting us in any manner convenient to you. Log on to our website for further details.

Thanking You

Ms. B.G. Dkhar

(Headmistress)

A UNIT OF BETHANY SOCIETY
